See I wanna drive around singing "Rum-a-lim-lim-lim-lim"  
 OK, I guess we'd better find a way. And you wanna take the car, well, I wish it was electric but I guess we gotta go.

Yes I wanna cameo but that's not shooting out so well.

Yes I wanna wanna cameo. I guess you got part way there since you had to go with the spirit of the world. Need the flair, for, every little bend, well hell let's get there in the end. We wanna take the fruit bag, but I need a little dip now.

I keep a little, give that song the gears  
 I keep a little cabriolet. Work that rabbit 'til they keep us away.  
 Work that song with a cabriolet. Come there speed of livin', peelin' away.

Mine, a true believer, weeping now see my mind has crashed.  
 And dancing on tiny fractions, comin' after this collapse well....

(49) Keep it all running on the cheap. I'm a little bit bored by that belief.  
 Keep it all running in the wind. Busy beat never been foreign ground.

(65) Driving all around, singing "Rum-a-lim-lim-lim-lim"  
 We're driving.  
 I, I guess, we'll have to exploring now.  
 "Rum-a-lim-lim-lim-lim" (repeat)

-----out in second version-----  
 We can be for sure, where we went I don't really know,  
 I guess we'll have to find where it's in the know.

I'm lookin' at the world from a glass the sun time  
 I work to have to guess, you'll have to see right  
 I want a funny little elf yeah Rum-a-lim-lim cuz they had to go down and see  
 Where, where did we leave the beer? I guess we left it at the peer where  
 Rum-a-lim-lim could drink himself to death, Rum-a-lim-lim-lim  
 Rum-a-lim-lim had to go in the world alone, alone, Rum-a-lim-lim-lim  
 Rum, etc.....
